

SCOTT H. LEGGETT

EXECUTIVE SUMMARY

Scott Leggett is the co-founder and principal of Global 1, the largest commercially insured medical bundle payment manager in the state of California and amongst the largest in the nation. Since 2011, he has been responsible for the company's operations and development including expanding its network of physicians, surgery centers, and self-insured employers, as well as promoting the benefits of this innovative, cost-effective surgical payment system.

He is also the co-founder and managing director of Convergent SameDay Orthopedic Strategies. This full-service consulting company delivers contract expertise, clinical education, process infrastructure and coaching to support outpatient surgery centers across the nation.

Leggett has more than 30 years in orthopedic program management and two decades in ASC management and development. Leggett's experience started in exercise physiology and research, then progressed into developing outpatient orthopedic therapy clinics. He moved into outpatient surgery when he founded a network of physician-owned ambulatory surgery centers. His reputation as a respected board member and past-president of the California Ambulatory Surgery Association (CASA) led to the success of many of his state-wide and national programs.

His philanthropic efforts include being a founder of the non-profit organization, Live 4 Legacy, which supports underserved and underprivileged communities by creating a movement to inspire intentional living. He is also on the board for the Vert Mooney Research Foundation whose mission is to develop, test, and implement strategies to improve quality of life and physical function.

Leggett earned a Master of Science in exercise physiology and sports sciences from the University of Florida College of Health and Human Performance. He is a public speaker on topics related to ASCs, bundled payments and sports medicine and has been published in more than 120 publications.
