

Carey Hutchins is an inventive leader with a passion for driving change in health outcomes. She is currently the Vice President of Client Success for Welldoc, where she is responsible for program success to ensure Welldoc's clients achieve a positive ROI, but most importantly that Welldoc's programs are helping users improve their health.

Carey has more than 18 years of experience working with innovators in healthcare such as Galvanon (NCR), StayWell Custom Communication, MDLIVE and Welldoc. Throughout her career, she has driven change to streamline client implementations, while focusing on program management as the driver to success. Carey understands that it's not enough to simply implement in order to encourage use of the program. With a deep understanding of user behavior and barriers for use, Carey has built robust, scalable programs to achieve client enrollment and engagement goals, and to improve health outcomes for users.

She earned her Bachelor of Science in Marketing and a Masters of Human Resource Development from Clemson University.
