

ProCare Rx

Pharmacy Benefit Management

ProCare Rx operates its own proprietary claims processing adjudication engine. All prescriptions are evaluated within the same integrated platform in real-time. Our pharmacy switch technology facilitates direct adjudication of claims, thereby eliminating the need for an intermediary. In each prescription transaction, we rapidly process thousands of edits to optimize costs for clients, while also enhancing clinical outcomes and member satisfaction.

ProCare Rx Services and Technology Deliver:

- Focused network enabling customers to achieve potentially up to a 50% reduction in prescription costs
- Flexible and scalable claims adjudication system
- Complete Pharmacy Systems & Services for over 38 years
- US-based 24/7 Customer Care Center
- Web-based pharmacy and member help desk application
- Customizable lowest net cost formulary options
- Quality-focused clinical programs
- EGWP Enhanced Specialty Saving Solution
- Drug utilization review and medication monitoring
- Interactive Mobile Member application (Apple & Android)
- Real-time access to your pharmacy data
- Smart cost containment program for specialty pharmacy services
- Manufacturer rebate optimization and transparency
